Speed and cunning is more important - the latter is required to find alternate routes round the automated sentry guns that can cut you to pieces in seconds, while the former lets you get close to your opponents and take them out, especially with no long range weapons at your disposal.. How so? Because your primary strength as the Predator is your stealth - your cloaking device keeps you perfectly hidden from humans and synthetics, your vision device makes your foes stand out against the background and you have a zoom facility that lets you take out targets from a distance - the disc and shoulder camon even home in automatically, making you a formidable foe.. But whereas the campaigns in AvP were essentially separate stories, Aliens vs Predator 2's sports a single coherent storyline, showing the same events through the eyes of different species.

It's a welcome touch that makes the three campaigns tie together rather well Take 2As you'd expect, each of the species has very different characteristics and technology, requiring distinctly different tactics to be employed for each one.. A little disappointingly, enemies do tend to see you if even if you're hanging from the ceiling in a dark corner - in single player, at least.. Also, your weapons, your cloaking device and the medi-comp device you can use to heal yourself rely on energy - you can regenerate energy by just switching to a free-energy device called an Energy Sifter which will replenish your energy meter..
